Tan color on Blue or Lilac is to be a rich orange. Tan color is to be brilliant and complimentary to the top color-the Self description for Red or Red Eyed Orange does not apply.

Points 2 -

Belly markings are to be as wide as possible, clear, and free of muddiness. Belly color should be visible from the sides of the posed cavy. Chest markings are to be full, clear, and high.

Points 3 -

Line of demarcation on sides and throat are to be high, clear, and distinct.

Eye circles are to be well defined and prominent around the entire eye.

Points 4 -

Nostril/mouth should be prominently outlined. Jowl markings should be clear, wide, and long, following the jaw line.

Shoulder markings are to be a bold, tapered line, beginning at the top of the chest, continuing over each shoulder, and up the sides.

Feet/legs, on the inside of each, should show tan, with top color on the outside. Toenails are to match the top color. Belly undercolor permissible.

Pea spots are to be prominent.

Sides should be evenly laced with tan tipped hairs, extending well up the sides. The lacing of tan tipped hairs serves to enhance the tan markings.

Faults—Tan on nostrils, extending up to the eye circle - giving a mealy appearance. Stray tan hairs in top color-not to be confused with desirable side lacing. Very muddy belly. Allow for mealiness in juniors.

Disqualification from Competition: Patches of foreign color, including tan, red, or orange in top color-not to be confused with tan tipped lacing hairs on flanks. Flesh spots on foot pads or ears on Black, Chocolate, and Blue.
